

Place-and-Train (PnT) with iOS and Swift

This PnT Pilot Programme focuses on getting the people with autism job placement and contribute their talents in the infocomm fields.

Be a Successful Developer

We are looking for individuals who have a passion in ICT and enjoy creating with technology to join us in contributing their talents in the infocomm fields.

You will be attached to a FinTech company and assume the role of UI/UX tester. Training and mentorship will be provided to equip you with technical skills and prepare you for the role. In the meanwhile, you will be able to build up your own portfolio as a developer.

Requirements:

- Singapore citizen /Singapore PR
- Individual aged 17 and above
- Has a primary diagnosis of ASD
- Passion in coding and technology

HIGHLIGHTS

- **Be employed as a UI/UX Tester with little or no prior experience**
- **Obtain training and mentorship in iOS and Swift Programming**
- **Receive monthly salary for the duration of the programme**

In November 2021, we will be commencing this 12-month pilot programme. We are excited to have you on board with us. Interested parties, please visit www.fintechacademy.com.sg to find out how this PnT prepares you for your journey as a competent UI/UX Tester.
